Naranjo.Eugenia@epa.gov

Thanks Joe,

After having discussed this with HydroQual, we figured we probably want to fly you to Mahwah, NJ after we get started with the Sediment Transport model. The November meeting will more to review the Conceptual Site Model and modify if necessary some empirical mass balance estimates that we have done for the lower Passaic.

Thank you very much,
eugenia

I am traveling the weeks of November 3 and November 10. Each of these will consume the entire week. Other than that, I am free.

Joe

Subject: Passaic Sediment Transport Meeting - your availability in November

Good morning -- could you two send Eugenia and I your availability for attending a meeting at HQI offices in NJ during month of November (and if that looks really full -- push on into first 1/2 of December). Eugenia will be in contact next week as I think she's going to be getting dates from HQI and Craig Jones.

Thanks!
